

Aluminum Treads and Nosings

HandiTreads® Non-Slip Stair Nosings and Treads are a permanent solution to slip and fall hazards. These aluminum treads and nosings can transform a walkway, staircase, ramp, or other pathway into a safe non-slip surface in minutes. The Treads and Nosings also simultaneously stabilize deteriorating steps, making them the most cost-effective safety solution available.

- Ideal for use in residential, commercial, and industrial applications
- Patented raised-button traction surface provides superior slip, trip, and fall protection year round in all weather conditions
- For use on virtually any surface like wood, concrete, masonry, or metal
